## We mold success

Yuanda Mould was founded at 1998 and has become one of the China's leading mold manufacturers. Yuanda mould innovative design, impeccable product quality, customer friendly approach and competitive pricing make it a dependable and trustworthy source of quality mold. Today Yuanda mould products are exported throughout the world including UK, Australia, Italy, France, Argentina, Mexico, Iran, Singapore and Taiwan etc.

Yuanda mould utilizes Pro-E, U.G. Solidworks, and Auto-CAD etc on products/molds design, which helps establish good communications with customers as well as reduce errors to a minimum level, decrease manufacturing cost as well as lead time for development to greater extent.

Yuanda mould unique and strict quality management system covers every aspects of the process from mold design until shipping. Quality management as Yuanda mould believes, is the major mean to achieving any objectives.

Yuanda mould business scope includes Household molds,Auto molds, home appliance molds, pipe molds, garbage bin molds, table&chair molds,stool molds,thinwall packaging molds,thinwall bucket molds,etc. Besides, as a professional mold manufacturer, Yuanda mould also targets on developing high precision and high standard mold designing and manufacturing, including thin molds, communication equipment molds etc.

We look forward to become your reliable and strategic partner.
